As you may know, Network's level of activity has sky-rocketed this past year--- first due to the tornadoes and storms of October 2019, and more recently, due to the economic impact of the COVID-19 pandemic. While we normally would see about 40-50 families per day in our food pantry, we now see about 140. The demand for clothing, housing assistance and job search assistance has also been ever-present during this time.

Your company's donation will help us keep up with this unprecedented provision of services, and allow us to address the basic needs of more of our neighbors within Richardson ISD – including areas in Dallas, Richardson & Garland.

Thank you again Bryan! Please let your employees know how appreciative we are.
