## SPIRAL X LLC ANNOUNCES ANOTHER BREAK THROUGH IN ZERO EMISSIONS

### The combination BTEX/Flash Gas management system

ESG Provider [Spiral X LLC](https://www.spiralxllc.com) announces another step in making natural gas a clean fuel for America.

“Building off our original invention of the zero emission BTEX elimination system, we have developed the additional capability of managing the flash gas in the same system as the BTEX for natural gas dehydration”, said Bryan Holland, President of Spiral X LLC.

These systems are clean, cost effective, and easy to install. Each system is tested 100% before leaving the factory.

### About Spiral X LLC

**Spiral X LLC** is the leader in environmental solutions for the natural gas industry. These solutions include the number one product in preventing carcinogenic BTEX vapors from entering the atmosphere, as well as the **ESG.CLOUD** platform, allowing for the governance of emissions remotely and reliably. The Spiral X team is diverse and socially conscious providing products that are 100% made in the U.S.A.
