SPIRAL X LLC ANNOUNCES THE CREATION OF THE EMISSION SERVICES DIVISION

Terry Nelson joins Spiral X as the Vice President of Emission Services

ESG Provider [Spiral X LLC](#) welcomes Terry Nelson as Vice President of Emission Services, along with three senior technicians, bringing with them over 100 years of natural gas dehydration experience.

“Terry has trained an entire generation of engineers in the safe, environmentally friendly way of handling natural gas processing. His team has been together for two decades installing and managing over a thousand dehydration systems across the country. We are excited to have him lead our services team in making our industry environmentally friendly”, said Bryan Holland, President of Spiral X LLC.

Terry Nelson responded, “In my 40 years of experience in this industry, the [ESG.CLOUD](#) platform is the single most revolutionary and important platform our industry has seen. The U.S. economy and position as the world leader in energy hinges on all our efforts in making natural gas environmentally friendly.”

About Spiral X LLC

Spiral X LLC is the leader in environmental solutions for the natural gas industry. These solutions include the number one product in preventing carcinogenic BTEX vapors from entering the atmosphere, as well as the **ESG.CLOUD** platform, allowing for the governance of emissions remotely and reliably. The Spiral X team is diverse and socially conscious providing products that are 100% made in the U.S.A.
